# Mahmoud Fahmy

Senior Mobile Developer — Flutter
Mansoura, Egypt

+201013312546 mahmoudfahmeyy@gmail.com LinkedIn GitHub Portfolio

## Profile

Flutter Developer with hands-on experience building mobile applications, real-time systems, and dashboards using Flutter, Firebase, and modern state-management patterns. Developed 15+ personal and freelance projects ranging from eCommerce apps to ride-hailing and POS systems. Focused on writing clean code, scalable app structure, and consistent UI/UX.

## Education

**Mansoura University**, B.Sc. in software Engineering— GPA 3.1 **Sep 2020 – Jul 2024**

## Experience

**Freelance Flutter Developer *Self-Employed | 2024 – 2026***

- SoundOra — Smart Arabic music app with maqam detection, synced lyrics, and AI recommendations.
- Sneakers — E-commerce marketplace with product browsing and checkout flow.
- Handled full lifecycle from UI/UX to backend, APIs, and Play Store deployment.
- ShipLink — Multi-vendor e-commerce & delivery platform with real-time tracking and payment integration.

**Military Service | Mar 2025 – Mar 2026**

- Completed one year of mandatory military service.

**Zikola — Flutter Developer | Feb 2026 – Jul 2026**

- Developed and maintained cross-platform mobile applications using Flutter and Dart.
- Collaborated with the team to implement new features and ensure high-quality UI/UX standards.
- Integrated RESTful APIs and managed app state to ensure smooth performance across devices.

## Skills

**Programming & Architecture:** Dart, Flutter, OOP, MVVM, BLoC/Cubit, Provider.
**Backend & Databases:** Firebase (Firestore, Realtime DB, Auth), Cloud Functions, Local Storage.
**APIs & Payments:** REST APIs, Stripe, Stripe Connect, Paymob.
**Networking Fundamentals:** TCP/IP, OSI Model, Routing & Switching, Network Security Basics.
**Tools:** Git, GitHub, GitLab, Postman, Google Maps SDK, Android Studio.

## Top Projects

**UniPath** — Flutter Developer & Founder | Get it on Google Play | Web App

- language, budget, and degree — ranking matches with percentage scores
- Developed smart document hub generating ATS-friendly CVs, SOPs, and cover letters from structured user data via Gemini API with multi-template and multi-language support
- Engineered premium subscription system with Paymob card/web integration, biometric auth, server-side activation, rate limiting, and webhook idempotency
- Integrated AI chatbot for university-specific Q&A with server-side usage caps via Supabase Edge Functions
- Implemented offline-first architecture with Hive caching, BLoC state management, structured profile extraction, and bilingual (EN/AR) RTL support
- Deployed Supabase PostgreSQL + Edge Functions backend, Firebase Analytics + Crashlytics, and GitHub Pages analytics dashboard

**ShipLink** — Multi-Vendor E-Commerce & Delivery Platform **| Jul 2024 – Dec 2024**

**Flutter • Supabase • Google Maps • Paymob •** Live Demo| User APK| Driver APK

- **Built a full-stack multi-vendor e-commerce platform with separate Customer and Driver applications from a single Flutter codebase using Flavors.**
- **Implemented real-time order tracking, live driver location updates, Google Maps integration, shopping cart, wishlist, search,**

**filtering, multilingual support (EN/AR), and responsive Web UI.**

- **Integrated Supabase (PostgreSQL, Auth, Realtime, Edge Functions), Google OAuth, Firebase Cloud Messaging, and Paymob payment gateway with callback handling and saved cards.**
- **Developed a complete Driver Management System (order lifecycle, earnings dashboard) and an Admin Dashboard for managing users and orders.**
- **Deployed the web application on GitHub Pages, implemented WASM compatibility, and optimized the project for Android and Web platforms.**

### SoundOra — Music App | Source Code | Landing Page | Download APK

**Oct 2025 – Feb 2026**

- **Built a Flutter music app with real-time maqam detection, AI taste profiling, and synced lyrics with emotion coloring for Arabic music.**
- **Engineered SmartDJ and MoodMap for personalized playlists based on mood and listening history.**
- **Integrated Supabase Auth with Google OAuth, PostgreSQL, and Hive for offline caching.**
- **Implemented Karaoke Mode, Listening Party, and Spatial Audio engine.**
- **Published landing page on GitHub Pages with release distribution via GitHub Releases.**

### Nexora — AI Career Intelligence Platform | Flutter Developer & Founder | Download APK | Source Code | Web App

**Sep 2025 – Present**

- **Built a full-stack AI career platform using Flutter, Supabase, and Groq AI with English/Arabic RTL support, providing personalized career guidance for students and early-career professionals.**
- **Engineered CareerDNA — an AI-generated comprehensive career profile with real-time completeness scoring — and a 4-template PDF CV generator with custom typography and automatic link injection.**
- **Developed an AI Opportunity Match Engine using fuzzy skill matching and weighted scoring to analyze job descriptions against user profiles and generate actionable gap analysis.**
- **Implemented adaptive conversational intake, Smart Builder, career intelligence dashboard, and offline-first caching with 408+ passing tests across the full feature set.**

### Sneakers eCommerce App GitHub

**Feb 2025 – Jul 2025**

- modern online footwear shopping experience with a responsive interface.
- **Optimized app state and data flow using *Provider* for scalable cart logic alongside *Firebase* for secure user authentication and real-time database integration**.
- **Developed a modular MVVM architecture**, ensuring a clean separation of concerns between business logic, data models, and the UI layer for easier maintenance and testing.

### eCommerce App GitHub

**Apr 2024 – May 2024**

- **Created product listing, filtering, cart logic, and user session management.**
- **Used Provider for state management and persistent local storage.**
